QUESTIONS RELATED TO AAA SCHOOL SAFETY PATROL ONLINE ORDERING

**When placing your online order, be sure to click the SUBMIT tab only ONCE to avoid duplicate orders/charges*

How do I know if my online order and payment went through successfully?

If you received a confirmation number and an email, your order submission and payment was successful.

My order will not go through and I don't know why.

Please check the following:

- Is all the information you entered on the order request form correct?
Please verify all advisor, school and payment information being submitted is correct. After you've made the necessary changes, please attempt to place your order again.
- Did you check the box above the submit button?
Make sure to check the box, and try placing your order again by clicking SUBMIT one more time.

- Are you using a school P-Card?
AAA must be listed as an approved vendor on your school's purchase card (P-card) if you choose to use this as your form of payment. Ask your school's bookkeeper and/or call your district office to confirm before you attempt to place another online order.

Is your online order still not going through?

If you are still getting an ORDER DID NOT PROCESS message, we recommend you take further action by following our trouble shooting tips and recommendation as outlined below.

TROUBLE SHOOTING TIPS AND RECOMMENDATIONS:

- Properly close all open applications, and restart your computer. Log back onto your computer and go directly to AAA.com/SafetyPatrol. Click ORDER MATERIALS and attempt to place your order again.
- If unsuccessful, try submitting your order using a different Internet browser i.e. Google Chrome, Microsoft Edge.
- If unsuccessful, try submitting your order on a different computer either at work/school or home.

After clicking the submit button once, the order form blanked out and I was taken directly back to the home page. How do I know if my order and payment went through?

If you received a confirmation number and an email right after placing your order, then your order submission and payment was successful. If you did not receive any confirmation and the screen 'blanked out', the form more than likely 'timed out' and you will need to try submitting your order again. First, review the 'Trouble Shooting Tips and Recommendations' (mentioned above) before you attempt to place your order again.

I was not provided with an order confirmation number and/or I did not receive an email confirmation after placing my order. Did my order go through?

If you received a confirmation number (this is provided on the order confirmation page you should have been directed to right after hitting submit on the order form) and an email right after placing your order, then your order submission and payment was successful.
